COMMUNITY IMPACT

My Sharing Sister

Fashion Dollars are distributed through 12 different women-serving agencies. The program allows us to provide free clothing and household items, to women and their children who are experiencing and/or fleeing from violence.

My Sister's Lab

The Lab helps women artisans to achieve their personal goals and encourage women's economic self-sufficiency by providing expertise, skill-based training workshops and retail space.

My Green Sister

Reuse and Create Craft! Workshops are offered at the stores to the community. The project promotes sustainability, responsible consumerism, and creative thought.

JOIN US

in an environmental movement that redefines current trends from blind consumerism to self sufficiency.

We welcome everyone from: organizations, local businesses, universities, and artists to support our stores, which in turn support ending violence against women.

Established in 1979, Battered Women's Support Services offers enhanced and specialized support services to over 8,000 women each year. We are committed to ending violence against women through empowering women and strengthening communities.

**Make a difference
in your community!**

Profits generated through the retail program are used to fund BWSS services and programs.

SHOP. DONATE. PARTICIPATE.
